Job Responsibilities:

- Assist the Site Principal Investigator at BYL Nair Hospital and the Principal Investigator at ICMR-NIRWoH in day-to-day coordination and implementation of the EndoCare India project.
- Coordinate project activities at BYL Nair Hospital, Mumbai, and maintain regular communication with ICMR-NIRWoH and other study sites as required.
- Support preparation of IEC documents, administrative approvals, project correspondence and study-related documentation.
- Assist in development and use of study protocol, SOPs, case record forms, referral pathways, patient information sheets, consent forms, training material and patient education material.
- Support screening, recruitment, informed consent, data collection and follow-up of women with suspected or confirmed endometriosis as per study protocol.
- Coordinate with gynaecologists, nurses, pain specialists, physiotherapists, mental health professionals, radiologists and other multidisciplinary team members at BYL Nair Hospital.
- Support patient navigation, referral tracking, MDT coordination, care plan documentation and follow-up monitoring.
- Assist in qualitative interviews, focus group discussions, stakeholder consultations, co-design workshops and Delphi-related activities.
- Ensure accurate data collection, data entry, data verification, data cleaning and maintenance of study records.
- Maintain project files, registers, databases, meeting records and documentation required for monitoring and reporting.
- Support training and orientation of project staff, healthcare providers and other stakeholders.
- Prepare progress reports, meeting minutes, presentations and other project documents.
- Contribute to data analysis, report writing, manuscript preparation, conference presentations and dissemination of findings.
- Perform any other project-related duties assigned by the Principal Investigator / Site Principal Investigator.

Place of Posting:

Department of Obstetrics and Gynaecology, Topiwala National Medical College and BYL Nair Hospital, Mumbai, under the supervision of the Site Principal Investigator. The selected candidate will be required to visit ICMR-NIRWoH, Mumbai, as per project requirements.
